Data Analyst with technical and analytical skills in data cleaning, analysis, visualization, and dashboard development. Experienced in using Excel, Power Query, Power BI, and DAX to prepare data, monitor performance indicators, and extract insights. Strong attention to accuracy and clear presentation of results.

EDUCATION

Taibah University

Bachelor of Science in Computer Science
Graduated: Nov 2022 – Class Honors

EXPERIENCE

Madinah Award Foundation Aug 2026
Training Data Analyst

- Cleaned, prepared, and analyzed data using Excel and Power Query, while checking data quality and consistency.
- Developed DAX measures and interactive dashboards using Power BI to visualize data and analyze performance indicators.
- Extracted insights and prepared data-driven recommendations to support performance monitoring and decision-making.

Madinah Health Cluster – Digital Transformation & Technology Department – Tamheer Training Nov 2025 – May2026
Data Analysis

- Extracted and analyzed data from the Document Center platform, and prepared reports and data visualizations to monitor performance indicators.
- Developed dashboards to display Document Center platform indicators, improve the clarity of operational data, and support decision-making.
- Organized and archived more than 200 digital documents within the Document Center platform, improving document access and retrieval.

Application Development | Madar Vehicle Management System

- Analyzed system requirements, designed user interfaces, and documented system processes.
- Developed the user management and user types modules, and performed functional testing to verify system functionality.

PROJECT

Sales Data Analysis Dashboard | Power BI Dec 2023

1st Place – Best Dashboard Challenge | Artificial Intelligence Club Camp

- Developed an interactive sales dashboard using Power BI to analyze sales performance, products, brands, and branches.
- Applied Power Query, data modeling, and DAX to prepare data and develop KPIs.

HR Analytics Dashboard | Power BI Mar 2026

- Developed an interactive dashboard to analyze workforce, payroll, and attendance data.
- Applied data modeling and DAX to develop KPIs for workforce and financial monitoring.

PROFESSIONAL CERTIFICATE

Google Data Analytics – Google / Coursera

TRAINING COURSES

- Data Analysis & Representation using Microsoft Excel - Tuwaiq Academy
- Digital Transformation - Droob
- Power BI Data Analysis & Visualization - Ministry of Communications & IT
- Fundamentals of Artificial Intelligence - SDAIA
- Data Analytics (Level 1 & Level 2) - Saudi Digital Academy & Coursera

SKILLS

Data Analysis:

Excel, Power Query, SQL, Python

Business Intelligence & Data Visualization:

Power BI, DAX, Data Modeling, Dashboard Development

Microsoft Office:

Microsoft Word, Microsoft PowerPoint, Microsoft Outlook, Reporting & Documentation, Presentation Development

Soft Skills:

Analytical Thinking, Problem Solving, Communication, Time Management, Teamwork & Collaboration

LANGUAGE

- English language
